## SUMMARY

A modern web developer with a passion for learning new skills and keeping up to date with the latest changes in the tech industry. Skilled in HTML, CSS, JavaScript, React, NextJS, NodeJS, C# and .NET.

- 2 ½ years working with HTML, CSS and JavaScript.
- Over 2 years working with React.js.
- 1 year working with Node.js, Express and MongoDB.
- 6 months working with C# and .NET.

## PROJECTS

### Contact Book:

<https://contactbook.co.uk>

HTML, CSS, JavaScript, C#, NET MVC

A full stack application for managing contacts.

- Website made with .NET MVC and TailwindCSS.
- Connected to Postgres SQL database.
- Data managed using Entity Framework ORM.
- Mailkit and Mimekit used to handle sending emails within application.

### Product Zone:

<https://www.productzone.co.uk>

HTML, CSS, JavaScript, React, NextJS

A website for one of the largest headwear suppliers in the UK.

- Website created using Next.js and TailwindCSS.
- Framer Motion used to incorporate smooth animations.
- Site connected to Prismic content-management-system giving client the ability to update website and add, edit and delete product pages.
- GraphQL and React Query used to filter products in CMS.
- Firebase Auth used to integrate authorisation and a custom client dashboard.
- SEO best practices put in place including schemas, meta tags and sitemap.

## PROFESSIONAL EXPERIENCE

### **Roy Sheppard Digital**

**Freelancer**

**Watford**

**MAY 2022 – Present**

Launched a freelance business, [roysheppard.digital](https://roysheppard.digital); specialising in JamStack technologies and creating bespoke functionality for new and existing businesses in my local area.

- Met in person with clients to find out what they needed out of a website and came up with solutions.

- Designed prototypes in Adobe XD with UI/UX best practices.
- Worked with clients to determine best solutions for customer needs.
- Made sure all websites met web standard accessibility guidelines.
- SEO best practices put in place including schemas, meta tags and sitemap.

**Royal Mail**  
**Customer Operations Manager**  
**Wembley**

**JUNE 2011 – PRESENT**

Royal Mail is the primary postal service in the UK delivering more than 50% of all parcels.

- Managed a team of up to 55 staff. Leading meetings and providing training on new tools and projects.
- Communicated with key stakeholders within the business and successfully hit office KPIs.
- Controlled a fleet of 35 vehicles. Used telemetry to control vehicle safety and trained other managers around the area on how to use the system.
- Improved quality, finance and safety within my office.
- Put plans in place for changing the office's way of working during Covid and maintained a successful operation despite social distancing restrictions and reduced workforce.

## **TECHNICAL SKILLS**
